### HEATING & COOLING IN ONE SYSTEM

Our AvidoTherm system is not only suitable for heating a room. You also save yourself the air conditioning.

### UNIFORM TEMPERATURE AND PLEASANT CLIMATE

Due to the small pipe spacing, there are almost no temperature waves, as with conventional surface heating.

### TURN ON ALMOST AS FAST AS LIGHTS

The AvidoTherm system creates a feel-good temperature in a short time – twice or even many times as fast as conventional heaters.

### FEASIBLE ON ANY WALL & FLOOR.

In drywall, in plaster, directly in the concrete layer or on curved surfaces – the AvidoTherm system is so versatile that it fits anywhere.

### LOW ACQUISITION AND ENERGY COSTS

Compared to the classic heating variants, the AvidoTherm system is not more expensive thanks to automated production technology, while at the same time much lower energy costs.

### 20-YEAR WARRANTY

The good experiences from many years have shown that the AvidoTherm elements are reliable. Das gives us a 20-year warranty.

COOLING AND HEATING IN ONE SYSTEM

## WHAT IS THE AVIDOTHERM FEEL-GOOD?

The AvidoTherm system is the most modern way to temper a room. Important: We say "tempering" instead of "heating", because we focus on your feel-good temperature. By the way, "tempering" does not only mean warming, but also cooling.

## OUR OFFER FOR YOUR LIVING AREA:

### THE AVIDOTHERM FEEL-GOOD CLIMATE:

Generation change in heating & cooling.

### UNDERFLOOR:

Underfloor heating is the basis of the comprehensive room temperature control.

### WALL HEATING:

Room temperature control over the walls as a supplement or alternative.

### CEILING HEATING:

Thermal radiation & cooling "from above" for your feel-good climate.
